TARIQ RAHIM

AI ENGINEER

+92 3467575880 tariqrahim885@gmail.com
Islamabad, Pakistan linkedin.com/in/tariqrahim885

ABOUT ME

I am a reliable, trustworthy and flexible individual who can learn new skills easily and execute them swiftly. I have a great knowledge and interest in Artificial Intelligence, Deep Learning and Machine Learning. I aim to pursue a challenging career at the responsible position in a progressive, growth-oriented and dynamic organization, where, I can utilize my in-build creative potential, innovative & learned technical skills, and sound work management capabilities, in order to deliver targeted & goal-oriented results.

PROFESSIONAL EXPERIENCE

AIRLOOP **Islamabad, Pakistan**
AI Engineer ***Sep 2022 – Present***

- Project: AIRLOOP.ai
- Optimized our dataset by cleaning, organizing and managing.
- Facilitated my team to automate data extraction process using python programming.
- Redesigned and optimized summary reports for our client using data visualization skills.
- Effectively implemented and communicated daily workflow procedures to fellow team members, resulting in an increase in productivity.

National Center for Big Data and Cloud Computing (NCBC) **Peshawar, Pakistan**
ML and DL Intern ***Mar 2022 – Sep 2022***

- Acquired comprehensive knowledge of essential tools and libraries including Numpy, Pandas, Matplotlib and Scikit Learn.
- Expanded my horizons and deepened my understanding of advanced ML and DL techniques.
- Explored and gained expertise in a wide range of ML and DL algorithms.

EDUCATION

AIR University **Islamabad**
MS in Artificial Intelligence ***2022 – 2024***
CGPA 3.31

University of Engineering and Technology Peshawar (UET) **Peshawar, KPK**
BS in *Computer Science and Information Technology* **2017-2021**
CGPA 3.08

PROJECTS

AIRLOOP.ai

- C&W HIGHWAY DIVISION-1 PESHAWAR GOVERNMENT KP.
- Collection and Preparation of world largest dataset of asphalt pavement distresses.
- Collaborated in the design and implementation of the AI algorithm for asphalt pavement distress detection.
- Automated report generation and Data visualization using python.

Sign Language Recognition System (SLRS)

- Focused on developing a model capable of recognizing Fingerspelling based hand gestures to form complete words.
- Utilized OpenCV for hand gesture analysis.
- Employed a CNN model as the cornerstone of our approach.
- Trained the CNN model on a comprehensive dataset of Fingerspelling gestures to enable accurate recognition.

Smoke and Fire Detection and Instance Segmentation (A Comparative Study)

- Explored and evaluated multiple algorithms, i.e. Mask R-CNN and YOLO V-5.
- Implemented and fine-tuned these algorithms to assess their effectiveness.
- Collected dataset for smoke and fire detection.
- Conducted annotation on the collected dataset.

Insect Pest Detection Using EfficientNet

- Leveraged the power of EfficientNet.
- Implemented necessary modifications and fine-tuned the Model.
- Optimized the model's hyperparameters and architecture to enhance its performance and accuracy.

Optimal Channel Selection and Feature Fusion for Epileptic Seizure Prediction using EEG Signals:

- Predicted seizures before seizure onset.
- Using machine learning and deep learning.
- Utilized SMOTE for class imbalance.
- Surrogate Channel for dimensionality reduction.

CERTIFICATIONS

- PM Youth Skills Development Program. (Six-month internship at NCBC UET Peshawar)
- Coursera Certified: Data Science Methodology.
- Coursera Certified: What is Data Science?

TECHNICAL SKILLS

Languages:	Python, Java
Libraries:	TensorFlow, PyTorch, OpenCV, SciKit-Learn, Numpy, Pandas, Matplotlib, Geopandas, OpenAI, LangChain, Llama-index, HuggingFace, Beautifulsoup, SQL, FAISS, Chroma, Streamlit, ARCgis, Excel
Developer Tools:	PyCharm, Jupyter Lab, Google Colab, VSCode, Linux
Research:	Machine and Deep Learning, Computer Vision, Natural Language Processing, Large Language Models, Embodied AIs

LANGUAGES

ENGLISH	Proficient
URDU	Native
PASHTO	Mother Tongue
